

## HAD RECURRING NERVOUS SPELLS

Now This Nebraska Woman Thanks Dr. Williams' Pink Pills For Her Good Health.

The remarkable cure of Miss Stella Haggard, of No. 621 North 13th street, Lincoln, Neb., should leave no doubt as to the merit of Dr. Williams' Pink Pills. She says: "I feel that I owe my life to Dr. Williams' Pink Pills as they cured me after four years of suffering following the change from girlhood to womanhood. Each month during this time I would be deathly sick for days. Nothing would stay on my stomach and I would have to vomit continually. I was in such a nervous condition that I could hardly control myself. My head, arms, and limbs would twitch and I was unable to get any sleep without the use of morphine. I was pale and sallow, had no appetite and suffered from severe headaches. I kept getting worse and would be more nervous each month. "I was treated by local physicians and a specialist from Omaha but none of them helped me a particle that I could see. Finally I became a complete nervous wreck and was sent to a hospital for treatment. I was there for six weeks and was some better at the end of that time, although I was a mere shadow, weighing only 95 pounds. I had been out of the hospital only a short time when the trouble returned. The nervous spells would come on each month and last for days. While in this condition I was induced to try Dr. Williams' Pink Pills. After taking the pills for a while, I could see a change for the better. I continued to use them and was entirely cured. I am well and happy today and weigh 140 pounds. I am not troubled with nervousness and am working every day. I certainly have to thank Dr. Williams' Pink Pills for my present good health." Dr. Williams' Pink Pills have been so successful in curing the characteristic ailments of womanhood that they are justly regarded as a specific for anemia or bloodlessness, chlorosis or green sickness, delayed development and all irregularities arising from impure or watery blood and weak nerves.

If you desire full information about this treatment, write for a copy of our free booklet, "Plain Talks to Women." Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y.

## TO CLOSE PARK THEATRE

Vinewood House Dark Until Weather Changes—Park Open.

General Representative C. C. Mathews of Vinewood park, announced this morning that the park theater would close Saturday night and that the theater would remain dark for a week or more until weather conditions improved. "The rain is hurting every amusement enterprise in this section of the country," said Mr. Mathews, "and it is useless for us to keep our theater open until the weather changes for the better. We are therefore going to close Vinewood theater. The playhouse will be re-opened just as soon as the weather allows. "The closing of the theater does not mean that the park gates will be shut. Vinewood park will be open every day rain or shine."

**Must Pay Government \$10,000.** New York, June 10.—In order to obtain possession of the jewelry, gowns and other dutiable property found in the effects of the party of Kenosha, Wis., women who arrived here on board the Lusitania last Friday, they will be obliged to pay the government about \$10,000, according to the statement of customs officials given out today. Examination of the nine trunks at the appraisers' stores, revealed many gowns and articles which the inspectors assert do not come under the head of personal effects.

**Forest Fire in New Mexico.** El Paso, Tex., June 10.—An extensive forest fire is ravaging Curtis canyon in the Sacramento mountains, destroying much valuable timber. Sawmills and homes in the district are in danger. There has been no rain for many months and the fire is spreading rapidly. A force of men under Forest Ranger Anderson is fighting the flames.

## Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later life causes the human system to undergo many changes, chief of which is in the digestive organs. It becomes harder and harder to get the bowels to move promptly and regularly and in consequence many elderly men suffer not only from the basic trouble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to assist in their work naturally. A violent cathartic or purgative is not only unnecessary but harmful, and something mild will do the work just as well.

After you have got through experimenting with salts and pills and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup Pepsin, a mild, pleasant, gentle-tasting laxative tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you write to Dr. Caldwell and he will gladly send you a sample bottle free of charge. This remedy is rapidly displacing all other forms of medicine for the cure of stomach, liver and bowel trouble, and families like Mr. O. F. Wisner's of Bycamore, Ill., and Mrs. Corrie Collier's of 28 N. Notre Dame street, South Bend, Ind., are now never without it in the house. They have tested it and know its grand value to every member of the family. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 606, Caldwell building, Monticello, Ill.

## SNAP SHOTS

The aeroplane is repaired. Mr. Mars is scheduled to fly Saturday afternoon and Sunday and he will do it.

The next thing on the program should be to take down the faded and wet colored bunting used in decorating for Merchants' week.

Small boys in Topeka are already beginning to count the time until the Fourth of July. A number of stores already have fireworks on display. And Mars is no piker. If the weather man would just "come through" with a little decent weather, Mars would hang a reputation on the town. On account of the threatening weather the Y. W. C. A. automobile ride which was scheduled for this evening has been postponed for a week.

There will probably be no regular director of the Y. W. C. A. gymnasium appointed until the move is made into the new home sometime during the first of next year.

July 2 is the date set for the opening of the Y. W. C. A. summer camp at Wakarusa. There will be three sleeping tents of large size, a dining pavilion, and a cook shack. A new commission house will be erected at the corner of Crane and Kansas avenue at a cost of about \$20,000. It will contain storage rooms, banana room, and other modern facilities.

The people living on Pine street between Tenth and Eleventh streets have asked that this stretch be named Bowell street to conform with the streets on both sides of Elmhurst.

On account of the mistake made by the assessors, the city commissioners have found it necessary to rescind their action on the Kenwood curb and gutter improvement and do it all over again. What will the disappointed merchants say? They have nearly all gone home rainsoaked, but Topeka did all she could to keep them dry and spent a barrel of money for their entertainment.

In spite of the date and the scheduled time the straw hats are still in the background. There hasn't been any good straw hat weather this year—but there is a lot promised by the weather bureau.

Although the millmen did some effective work in policing the aviation field a few of the fellows were mere boys and hardly knew how to conduct themselves in the performance of actual duty.

The Wolff Packing company has been granted permission from the city to close up Quincy street in preparation to the erection of their new seven-story reinforced concrete structure which will cost about \$125,000.

With a \$4,000 deficit staring the "big week" management in the face, twenty special deputies at \$2 per day were withdrawn from duty on the aviation field last night. Three mounted police and the militia remain.

The people on the Rock Island train running past the aviation field were able to see both flights made by Aviator Mars. People coming through from the east will think that the Kansas farmers do this on every alfalfa field.

And now the Coolidge's tramp home in rubber boots to fret and fume about the weather. The wrath of the god of rain hath surely wrought against the fair capital and the glory she sought to obtain seems to have received the ha ha.

Those who happened to drop in and witness the biplane flights Thursday morning may consider themselves lucky. From the recent weather exhibited by the weather observer, Aviator Mars will save money by renting a home and living here.

Commissioner Bone is a pessimist. "This weather proposition is a hard nut to crack. I bet that if Topeka had advertised a motor boat race there wouldn't have been enough water in the river to water a horse."

A certain newspaper chap, and a daring young woman also inclined in a literary way, who had planned to soar together in a flying machine over the fact of the poor prospects for the fulfillment of their ambition.

The main question in Topeka at this time is—"Did that Rock Island train create a vacuum and wreck the airship or were the air currents natural?" It is agreed, however, that the Rock Island has broken the wreck record—it has succeeded in wrecking a biplane.

There is a sign in Garfield park which says that free city band concerts will be given there every Sunday afternoon and Thursday evening. The band concerts in the city park—a few blocks this side of Garfield park—are to be given on Monday evening. North Topeka should be full of music this summer.

Miss Letitia Hall of Franklin, Ind., has been chosen to act as associate Y. W. C. A. secretary, her work to commence September 15. She will fill the vacancy made by the resignation of Miss Ella Cowgill. Miss Hall is a graduate of Franklin college, and the Y. W. C. A. training center at Indianapolis, Ind.

Thirteen hundred was the total registration of merchants who attended the Merchants' week entertainment, under the auspices of the Topeka Jobbers' and Manufacturers' association, although the officials of the organization estimate that there were at least 1,650 guests present. It was considered the most successful affair of the kind yet given, and great praise is due President Geo. P. McEntire and his force of able assistants.

## THANKS TO THE WOMEN.

Mrs. James Speyer Looks After Horses Too Old for Duty.

New York, June 10.—Henceforth New York's veterans fire horses when they arrive at an age which unfits them for active duty at the engines and trucks will be pensioned in easy berths in other city departments instead of being auctioned off into a life of hard labor. This change has been brought about through the efforts of Mrs. James Speyer, president of the women's auxiliary of the S. P. C. A. She decided a year ago to do something toward pensioning fire horses and conceived the plan of a rest farm. She interested Mrs. Russell Sage and put the case before Commissioner Waldo. He promptly decided, as a temporary method, at least, to turn superannuated animals over to certain city departments, where only light work would be required of them. The new regime went into force this week.

**Stewart M. Brice Dead.** New York, June 10.—Stewart M. Brice of New York, son of the late Calvin S. Brice, United States senator of Ohio, is dead at his summer home in Asbury park. Greatest variety fruit and vegetables. Cope's City Market.

# Today and Tomorrow at the Paxton Store

Exceptionally strong values in every section that prove our cash buying and cash selling system means lower prices for you to pay for all your merchandise bought here.

## COWS ATE UP THE PAINT.

Three Jersey Milk Producers Die as Result of Diet.

Washington, Pa., June 10.—A diet of paint was fatal to three registered Jersey cows belonging to Scenery Hill farmers and a fourth is expected to die. A can of paint was thrown into the pasture, which after they ate it, caused them to run about the field and try to gore each other. It was feared they had rabies and a veterinary who was summoned found the cause.

**Both Die Within a Day.** Washington, June 10.—Within two hours of each other, John May, aged 76, and his wife, Hannah May, died in the house at Gerards Fort, Green county, where they were married 57 years ago. In the same dwelling they reared a family of seven and celebrated their golden wedding. Both were born within a hundred yards of where they lived and died.
